Using biocontrol in broad-acre field crops is challenging

- Large areas – manual application is time consuming
- Weather conditions can affect the BCA

The solution

T-Protect[®]
BOOSTER

Protection for the beneficial insects

Supplied in our patented T-Protect system the wasps are protected from

- Sun
- Radiant heat
- Rain
- Predators
- Damage during transport

The solution

T-Protect[®]
BOOSTER

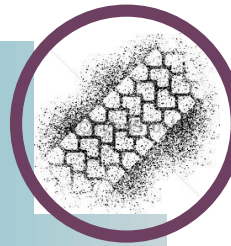

Fast, easy application

- Fast
 - Speeds up application rate by a factor of 5
- Mechanised application on large areas by
 - Tractor, Quad, SSV
- Cartridges supplied ready-made
 - 5 minutes to set up

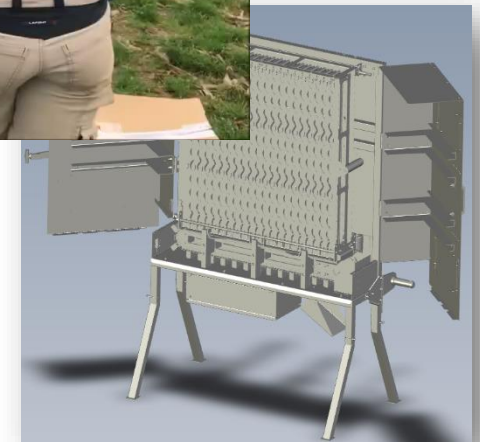

The advantages of

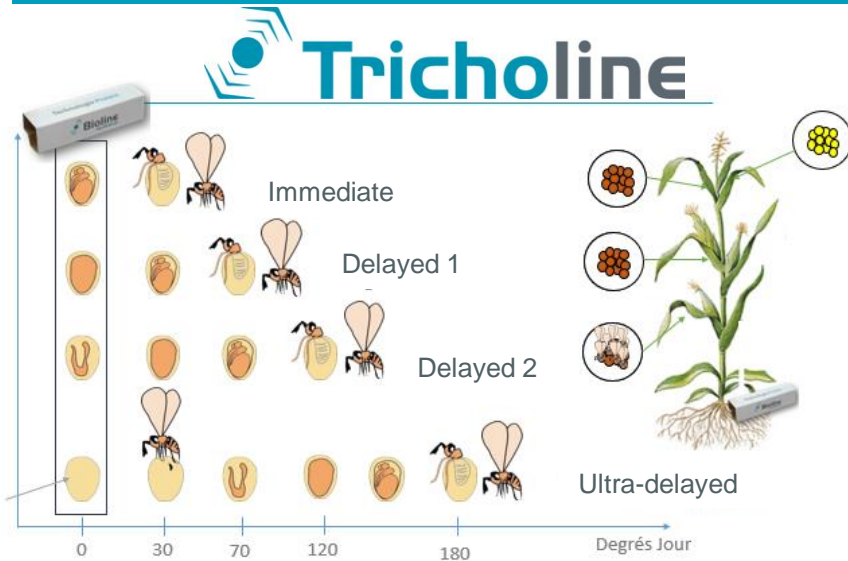

T-Protect[®]
BOOSTER

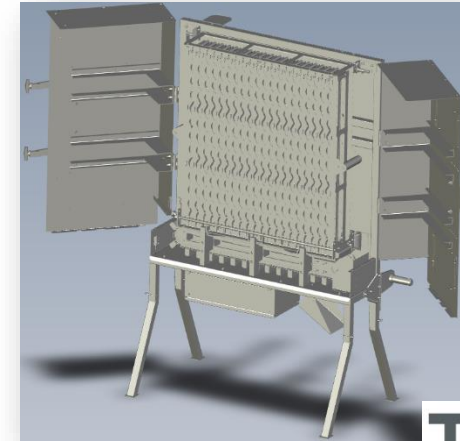

- Large capacity: 20ha per fill
- Self contained distribution unit
- Time saving :
 - T-PROTECT[®] loading time: 5min
 - Interchangeable racks
- Adaptable support can be use on: tractors, quads SSV, self-propelled vehicles

A combination of Technologies

T-PROTECT

T-Protect[®]
